The Roth's Church Road Community Partnership

When there is a need in the community, we must work together to fulfill it, but when the need is significant, we must work together to build a sustainable future. Go to www.rosesymca.org/springgrove for more info!

FINDING THEIR FUTURES.

We will bring local, well-established organizations together to deliver essential multi-generational services to individuals, youths, and families in the Spring Grove Area. As a result, approximately 83,000 people a year can access high-quality wellness services, programs for older adults, childcare, and more in a single accessible location.

Child Care and Youth Development

Thanks to generous financial assistance, all families can enroll their children in the Y's childcare programs. At the new facility, these programs will be enhanced with support from the teams at Spring Grove Parks and Recreation and The Spring Grove Area School District. In turn, the youth in our care will receive programming that is tailored to their needs.

Health and Wellness

The facility's YMCA branch will provide high-quality wellness equipment and programming while Windy Hill on the Campus will provide support and community for the region's older adults.

The true power of the partnership lies in the cross-generational relationships that will form between children in the YMCA's youth programs and older adults in Windy Hill on the Campus' older adult services, leading to a more connected and supportive community.

Stability and Basic Necessities

The YMCA will bring its free or low-cost chronic disease prevention and management programs for conditions such as Parkinson's Disease and cancer to the facility, which will collaborate with healthcare providers who are planning to occupy space in the facility.

The YMCA and New Hope Ministries, another nonprofit partner in the project, will work together to give immigrants and long-time residents alike case management services and direct assistance, such as referrals and food distributions.

PARTNER ORGANIZATIONS

- YMCA of the Roses
- Windy Hill on the Campus
- Spring Grove Parks and Recreation Center
- Spring Grove Area School District
- Training Leaders Through Athletics
- York Alliance Church
- New Hope Ministries

Childcare and Youth Development

Statewide performance decreased in both English (7%) and Math (11%).

According to the Pennsylvania Child Care Association, there are over 7,000 vacancies in childcare statewide, with low-income families being especially affected.

Health and Wellness

WellSpan Health's 2022 Community Health Needs Assessment found that, over a 30-day period, 37% of York County residents did not participate in any physical activities. In the same study, 45% reported that their mental health was "not good."

Social isolation has also been increasingly common, and its negative impact has been especially felt among older adults.

Community and Basic Needs

According to the CDC, 90% of our country's \$3.8 trillion annual healthcare costs are associated with chronic diseases and mental health conditions.

WellSpan's Community Health Needs Assessment revealed economic hardship among York County residents increased over the past several years.

QUIET WALK IN THE PARKS

Use all of your senses during a quiet walk in our local parks and you'll be amazed at what you can find! Take a magnifying glass or binoculars to get a closer look at nature around you.

Stand still, sit, or take your time walking through the park. LOOK and observe what you see around you. Do you see branches or leaves moving in the wind? Are there any animals scampering across the grass? Look down – can you see insects in the grass or footprints from people or animals? Look up – do you see clouds or birds flying in the sky? Are the sun, moon, or stars visible? There are so many things to see. How many of these can you find?

Animal tracks
 Fallen leaves
 Insects
 Bird nests
 Woodpecker holes
 Streams
 Spiderwebs
 Animal droppings
 Pinecones
 Acorns or tree nuts
 Worms or snails
 Groundhog or rabbit holes

Berries on bushes or trees
 Buds on branches
 Moss on trees, rocks or logs
 Squirrel nests (called dreys)
 Puddles on the ground
 Rocks of different sizes, shapes, and colors
 Different kinds of birds
 Litter to pick up to keep our parks clean
 Different types of bark on the trees
 Flowers of different colors
 Moths or butterflies
 Anthills

TOUCH and feel the different textures in nature, but be sure to avoid poison vines, hemlock, and thorns. What does lichen or moss feel like? Can you feel the wind or sun on your face? What feels cool or warm to the touch? When you run your fingers over the bark of trees is it smooth or rough? Is the surface you are walking on wet or dry? Does a leaf feel stiff or soft in your hands?

LISTEN – What can you hear? Are there birds singing in the trees or insects buzzing as they fly around? What do your footsteps sound like on different surfaces? Can you hear noise from traffic that is close by? Are people talking or dogs barking in the distance? Do you hear a zooming noise from a plane flying overhead? Can you hear leaves rustling in the wind or water flowing in a creek? Is there a frog croaking somewhere close to you?

SMELL – What are the smells around you? Can you smell smoke from someone's chimney or campfire? If it is overcast outside can you smell dampness from the soil? Maybe you can smell someone cooking yummy food. Are there flowers around that have a pleasant, perfumy smell? Maybe you smell something unpleasant from pollution or smell fresh cut hay in farm fields nearby.

Hope you enjoy discovering nature during your quiet walks in our parks!
