RE: Water Main Installation

Dear Property Owner:

The Columbia Water Company will be replacing the water main on portions of Elizabeth Street and King Street. This work is being done ahead of street work that the Township has planned for this area.

The work is expected to start the week of October 26th and take 4 to 6 weeks to complete. Weather events or encountering bedrock could alter this schedule.

The entire water main will be replaced, and your water service will be moved to the new water main. During this process, you may experience temporary water service interruptions.

There will also be disruptions to the parking and traffic flow during this period of time. Paving restoration of the disturbed areas will occur, when possible, shortly after the water main has been installed.

Your patience and cooperation during this construction will be appreciated.

The foreman on site will be Eric Faus. Feel free to reach out to him at the work site or call him at (717) 471-7818.

Should you have any questions, please feel free to give me a call.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Lewis", with a stylized flourish at the end.

David T. Lewis, P.E.
President and General Manager
