CLEANUP SAFETY TIPS:

- Wear reflective clothing (such as a reflective vest) when working on, or alongside, a roadway.
- Wear protective clothing as well, such as long pants, closed-toe shoes, and safety glasses.
- If you are working 15 feet or closer to the road, make sure you put up cones or signs warning drivers.
- A good rule of thumb is to place signs or cones 10x the speed limit before the start of the work area (ex. If the speed limit is 35mph, place the cones or signs 350ft before the work area).
- Be aware of traffic and do not cross the road where it is not safe.
- Be sure to keep bug spray, sunscreen, a cell phone, a first aid kit, snacks, and water on hand.
- Park all cars as far off the road as you can, and carpool when possible to reduce of cars on the side of the road.
- Work only during non-peak travel times.
- Work on one side of the road at a time and face oncoming traffic.
- Do not wear headphones to listen to - you will need to be able to listen for traffic.
- Be alert for hidden holes and rocks.
- Watch out for plants and animals that may be dangerous.
- Be alert for stinging insects, rodents, snakes, deer, and bears. Leave them alone if spotted.
- Avoid poison ivy (“leaves of three, let it be”) and giant (8-14’ tall stems with small white flowers).
- When finding hazardous or radioactive materials, note location and call the police. A good rule of thumb is: If you do not know what the item is, don’t touch it.
- Do not try to pick up tires, heavy objects, or roadkill. Instead, call 1-800-FIX-ROAD and a time will be scheduled to pick it up.
