

Why does my power keep going out ...and what can we do about it?

This presentation will share ways that neighbors can come together to build up the resilience of their community, as well as policies that can be passed by local governments to make extended blackouts less likely. From shared fridges, to microgrids, to municipal utilities, this event will explore solutions that go beyond generators.

Where: **Forest Hills Borough Building**

When: **September 13 from 1:00-3:30 pm**
