Update to Water Service Reconnection Fees

The Inglis Town Commission has approved ordinance 01-26 updating water reconnection fees for residential and commercial customers.

What's Changing?

1. Reinstallation of a Water Meter

If a water meter was installed and later removed by the Town for any reason, the cost to reinstall it and restore service is \$100.00 meter reinstallation fee, plus any other applicable fees for starting a new water account.

This applies only when a meter was previously removed.

2. Water Reconnection After Shut-Off

If water service has been turned off by the Town for any reason, the fee to reconnect service is \$50.00 reconnection fee.

When Does This Take Effect?

The ordinance was adopted on April 14, 2026, and the updated fees apply from that date forward.

If you have questions about your account or these fees, contact Inglis Town Hall or the Inglis Water Department for more information.
