

Stay Cool in Today's Excessive Heat

The entire Commonwealth is in for a dangerous scorcher today, with extreme heat warnings in the eastern portion of the state and southwest and heat advisory's everywhere else. Heat index values highs of up to 104 are expected as far north as Bradford County, the southcentral portions of the state will feel like 108 while the southeast will feel as hot as 110. In addition, many areas are under an orange air quality alert for elevated levels of ozone.
