## Declaration of Snow Emergency

**Effective 6 am on Sunday, January 18th, North Wales Borough is declaring a Snow Emergency due to the predicted snowfall impacting our area.**

**The emergency will remain in effect until further notice to ensure public safety and allow for efficient snow removal operations.**

### **Important Information for Residents:**

#### **1. Parking Restrictions:**

To assist with plowing, residents are required to remove all vehicles from public roadways. Vehicles left on streets will be subject to ticketing or towing.

#### **2. Travel Advisory:**

During these inclement weather conditions, non-essential travel is strongly discouraged. Roads may be hazardous, and plows need room to operate safely.

#### **3. Clearing Sidewalks:**

Residents and businesses are reminded to clear sidewalks of snow and ice within 24 hours after the snow has stopped, as per township ordinances. It is illegal to deposit snow removed from sidewalks or private property onto any Borough street and you are prohibited from throwing or blowing of snow into the streets from sidewalk or properties. Violators are subject to fines. To assist emergency personnel, specifically firefighters, please be sure to clear a three (3) foot clearance around all fire hydrants on your property.

#### **4. Emergency Assistance:**

In case of any emergency, please dial 911.

#### **5. Shoveling Tips:**

Shovel snow early and often to prevent accumulation. Avoid shoveling the last 4 feet of your driveway until after the plows pass. This will save you time and effort!

**Stay Informed: Updates will be posted on the Borough's social media channels as conditions evolve. Please monitor these platforms for the latest information.**

**We appreciate your cooperation in helping North Wales Borough stay safe during this winter storm.**

**Mayor Neil McDevitt**

**North Wales Borough.**
