**Notice to Mercer Township Residents on Browntown Road**

RE: Tree Trimming along Browntown Road

Dear Browntown Road Residents:

Mercer Township is writing to inform you that we have contracted with Adler Tree Service to perform tree trimming along Browntown Road in Mercer Township. The work will involve trimming some of the overhanging and heavy tree growth back to the edge of the roadway. This project is being undertaken to improve sunlight exposure on the road which will help enhance winter driving conditions and overall safety.

The work is scheduled to take place over several weeks between the end of June and early July. During this time, Browntown Road will be closed in sections as crews complete the trimming. Local traffic will be permitted through the work zones; however, we kindly ask for your patience and cooperation as crews carry out this important work. Safety for all is our most important concern.

We appreciate your understanding as we continue to improve the safety and condition of our Township roads. If you have any questions or concerns, please feel free to contact the Township office.

Sincerely,

Mercer Township Supervisors

**John Bennett, Jr. – Bill Long – Pete Treese**
