Dear Neighbor,

Brackenridge Borough is notifying residents of upcoming work associated with the Water Filtration Plant improvement project. This project is an essential upgrade to ensure long-term water quality, system reliability, and compliance with current regulatory standards.

Construction activity will occur in and around the Water Filtration Plant property, with contractors accessing the site from Reservoir Drive. The hours will be 7am to 5:30pm Monday through Thursday with possible later hours during concrete pouring. The project is expected to last eighteen months, but with change orders and potential supply shortages, it take longer. We will update you on progress as needed.

While the Borough and project team will work to minimize disruption, residents should be aware of the following temporary impacts:

Traffic & Access

Periodic increases in construction vehicle traffic entering and exiting the plant access points.

Flaggers may be present at times to safely manage traffic flow.

Noise & Activity

Construction noise during permitted daytime work hours.

Use of heavy machinery and equipment that may be audible from nearby homes.

General Disruption

Temporary staging of materials or equipment within designated areas near the plant.

No interruption to residential water service is anticipated.
