

Data Center Informational Meeting
Wednesday, September 10, 6:00 – 7:00 PM

Cheswick Borough has scheduled an informational meeting with Allegheny DC Property Company LLC, the developer responsible for the proposed data center to be located in Springdale Borough. Although the data center will be sited entirely within Springdale Borough, the developer wishes to provide residents the opportunity to review project plans and ask questions.

An informational session will take place on Wednesday, September 10, at the Cheswick Borough Building (220 S. Atlantic Ave) from 6:00–7:00 PM

If you are unable to attend, the Springdale Borough Planning Commission will hold a meeting on September 24, 2025, at 6:30 PM (325 School Street, Springdale, PA 15144).

Please note: The data center will be entirely located within Springdale Borough. Cheswick Borough does not have jurisdiction over this project; for this reason, Cheswick Borough officials will not hold public meetings or hearings regarding the matter. Our officials have been in contact with both Springdale Borough and the developer to convey community concerns related to noise, lighting, traffic, and environmental impact. Both Cheswick and Springdale residents and officials share these concerns.
