STORMWATER/MS4 PUBLIC SERVICE ANNOUNCEMENT

As part of the Youngwood Borough Municipal Separate Storm Sewer System, or MS4 Permit with the Pennsylvania DEP, the Youngwood Borough Council would like to remind all people who live in and work within the Borough that our storm sewer inlets, curbs and gutters, drainage ditches and storm pipes discharge directly and untreated into Jacks Run, Sewickley Creek, and other natural waterway tributaries within the Borough. In order to help keep our streams and lakes clean and pollution-free, we remind residents and businesses to please:

June – Maintain a grass height of 3 inches or more within reason. Longer grass is healthier and needs less fertilizer.

Please note: All questions from the Public in attendance are to be addressed to the chair of the meeting. Out of courtesy to all in attendance, the member of the audience that has been given the floor should be the only person speaking. We respectfully request that no group discussions be held. Each person speaking under public comment will be permitted to a three-minute time limit.
