## LASD COMMUNITY SURVEY

"It is important to build an understanding of various viewpoints within all members of the school organization. Collecting survey data from as many as possible within the school community including community members with no children in the school, teachers, support staff, administrators, and students is critical to the work we do, educating our students, and to continuing to enhance our partnerships. Partnerships between school and the community, parents, employees, and students. This survey will help us with our first step - getting to know your partner."

The survey can be found [here](#)
