Nighttime Lane Restrictions Next Week on Route 322 at Route 322/Chambers Hill Road Intersection Improvement Project

Traffic to be shifted to the south

Harrisburg, PA – The Pennsylvania Department of Transportation (PennDOT) announced today that nighttime lane restrictions will be in place next week on Route 322 at the project to reconstruct the intersection of Route 322 with Grayson Road and Chambers Hill Road in Swatara Township, Dauphin County. These restrictions will be in place so the contractor can move and reset barrier and paint lines to shift eastbound and westbound Route 322 traffic to the south so work can be done on the north side of the highway.

Weather permitting, lane restrictions will be in place on eastbound and westbound Route 322 from 9:00 PM to 6:00 AM the nights of Sunday, December 8, through Thursday, December 12.

Eastbound restrictions will be in place from east of the new jughandle at Witmer Road. Westbound restrictions will begin west of Kunkle Avenue.

Once the shift is complete, two 11-foot lanes will be open in each direction.

Motorists should be alert and drive with caution through the work zone.

This work is part of the reconstruction of the intersection of Route 322 with Grayson Road and Chambers Hill Road in Swatara Township.

The Route 322 signalized intersection with Grayson Road and Chambers Hill Road (Route 3006) is being reconstructed to four approaches with left-turn lanes removed from Route 322.

One through lane will be added in each direction of Route 322. Eastbound Route 322 left turns will be replaced with the new jug handle and signal at Witmer Road. Westbound Route 322 left turns will be replaced with a new roundabout and bypass lanes at the intersection with Milroy Road and Grayson Road.

Construction of three retaining walls will accommodate the widening and geometry, as well as the addition of dynamic message signs, stormwater management basins, drainage, guiderail, barrier, signs and upgraded pavement markings, and other miscellaneous construction.

This project is expected to be completed by August 18, 2027. J.D. Eckman, Inc., of Atglen, PA, is the prime contractor on this \$38,561,349 project.
