Where:

PLUM EMS (Plum Public Works Building Garage Bays)
2001 Mike Thomas Way, Plum PA 15239

What:

Certified child passenger safety technicians will check for recalls, ensure safety seats are installed to manufacturer specification and verify child height, weight & development level is appropriate for your car seat.

Why:

- 46% of seats are installed or sized incorrectly¹
- Is there a manufacturer's recall on your seat?
- A properly sized and installed car seat or booster:¹
 - Reduces infant fatality by 71%
 - Reduces 1-4 year old fatality by 59%

Supported by
Plum Rotary
