PennDOT to Install a New Stop Sign Configuration on Mount Pisgah Road at Freysville Road Intersection in York County

The intersection will become an all-way stop

Harrisburg, PA – The Pennsylvania Department of Transportation (PennDOT) announced today it will install a new stop sign configuration on Monday, March 30, 2026, at the intersection of Freysville Road (Route 2001) and Mount Pisgah/Freysville Road (Route 2009) in Windsor Township, York County. The new configuration will consist of a new stop sign on southbound Mount Pisgah Road, making the intersection an all-way stop.

This new stop condition on Mount Pisgah Road will be marked by a “Stop Ahead” sign with a flashing amber light, as well as a flashing red light on the new stop sign. The amber light will remain in place for 30 days and the red light will remain in place for 60 days, after which time, the flashing lights will be removed. In addition, there will be a (VMS) variable message sign alerting motorists of the new stop condition on Mount Pisgah Road.

Drivers can check conditions on major roadways by visiting www.511PA.com. 511PA, which is free and available 24 hours a day, provides traffic delay warnings, weather forecasts, traffic speed information and access to more than 1,200 traffic cameras. 511PA is also available through a smartphone application for iPhone and Android devices, by calling 5-1-1, or by [following regional X alerts](#).
