

CITY OF KRUM WATER TOWER PAINTING

Dear City of Krum Residents,

Please be aware that starting on October 21st, 2024, the City of Krum Water Tower at Northpoint pumping facility will be taken out of service for scheduled maintenance / painting. Public Works and the Fire Department are taking appropriate measures to ensure that drinking water and fire protection water will not be significantly impacted, however, there is a possibility that you may experience some minor fluctuations in pressure at your home or business during the completion of the work to be done. This is necessary maintenance and is scheduled to last approximately 3 weeks.

Please feel free to contact Krum Public Works or City Hall (940) 398-7318

If you should have any questions.

Jerry Higgins
Public Works Director
