WILLIAMSPORT, PA 17701  
(570) 323-6148

## **DRINKING WATER WARNING BOIL YOUR WATER BEFORE USING**

**HIERVAN EL AGUA ANTES DE USARLA.  
ESTE INFORME CONTIENE INFORMACION MUY IMPORTANTE SOBRE SU AGUA DE  
BEBER. TRADUZCALO O HABLE CON ALQUIEN QUE LO ENTIENDA BIEN.**

**Customers** of the Williamsport Municipal Water Authority in the following area of Old Lycoming Township May Be At Increased Risk From Microbial Contamination:

- **Princeton Avenue, from Grimesville Road to Mill Lane**
- **Marvin Circle, Marvin Lane, Paige Lane, Calvin Drive, Brooks Avenue, Valley View Avenue, and Alexander Avenue**
- **214 Myers Road, 26 Phillips Hill Drive**

We routinely monitor the conditions in the distribution system. On May 6, 2025 we experienced a loss of positive water pressure due to a main break that affected your water service. A loss of positive water pressure is a signal of the existence of conditions that could allow contamination to enter the distribution system through back-flow by back-pressure or back-siphonage. As a result, there is an increased chance that the water may contain disease-causing organisms.

### **What should I do?**

**DO NOT DRINK THE WATER WITHOUT BOILING IT FIRST.** Bring all water to a rolling boil, let it boil for one minute, and let it cool before using, or use bottled water. Boiled or bottled water should be used for drinking, making ice, brushing teeth, washing dishes, and food preparation **until further notice.**

*Inadequately treated water may contain disease-causing organisms. These organisms include bacteria, viruses, and parasites, which can cause symptoms such as nausea, cramps, diarrhea, and associated headaches. These symptoms, however, are not caused only by organisms in drinking water, but also by other factors. If you experience any of these symptoms and they persist, you may want to seek medical advice.*

Guardians of infants and young children and people at increased risk, such as pregnant women, some of the elderly, and people with severely compromised immune systems, should seek advice from their health care advisors about drinking this water. General guidelines on ways to lessen the risk of infection by microbes are available from EPA's Safe Drinking Water Hotline at 1 (800) 426-4791.

### **What happened? What is being done?**

A main break occurred and the main is being repaired to correct the problem. We will inform you when all corrective actions have been completed and when you no longer need to boil your water.

For more information, please contact the Williamsport Municipal Water Authority at (570)-323-6148.

*Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.*

This notice is being sent to you by the Williamsport Municipal Water Authority.
