FOR IMMEDIATE RELEASE

September 24, 2026

Curry County Road Conditions Update

The Curry County Road Department is reporting that several roads throughout the County are experiencing **minor, intermittent flooding** due to recent weather conditions.

At this time, **no roads have been reported as impassable**. However, water levels and road conditions can change quickly, and motorists are urged to use caution.

The Curry County Road Department advises all motorists to **pay close attention to changing road conditions, reduce speed when necessary, and exercise caution while traveling on all County roads**. Please do not attempt to drive through areas where water is covering the roadway if conditions appear unsafe.

We appreciate the public's patience, cooperation, and continued support as the County monitors road conditions and responds as needed.

Questions, concerns, or reports of road conditions may be directed to:

Walon Jones, Road Superintendent
Curry County Road Department
(575) 762-1501
