

Road Construction

Countryview Court Closing

Monday thru Friday from 7:00am to 3:00pm

The Project

Our Borough engineer has determined that the Countryview Court road surface has deteriorated to a point that we can not wait until spring to repair this road. Borough Council has re-allocated funds so that we may perform the Countryview Court repairs this year.

Parking - *No parking or traffic from 7am to 3pm daily, Monday thru Friday!*

On Monday morning, October 13th. at 7:00 am, Countryview Court will close to all traffic and parking. Any vehicles remaining on Countryview Court will be ticketed and towed at the owners expense. While the carports will not be repaved, they will also be closed for parking. Countryview Court will reopen to traffic and overnight parking sometime after 3:00 pm. The road will close again at 7:00 am on Tuesday. This will continue thru Friday. The contractor will also be providing notices to residents throughout the week.

Alternate Parking - *Consider alternate parking for this week!*

Countryview Court Residents are encouraged to find alternate parking on the left side of Carriage Circle in the parking area across from Building #22 or Pennsbury Blvd. across from building #18 along the side of the road. The drop-off area at the end of building #20 may NOT be used for parking!

Countryview Carports - *Remove your vehicle to avoid possible damage!*

As we will be milling the surface of the road, it is mandatory that all vehicles must be removed from the Countryview carports in order to prevent dirt/damage. The Borough and contractors will not be responsible for any damage to vehicles left in the carports during the milling and paving process!

Timeline - *This schedule is subject to change!*

Weather permitting, on Monday, October 13th, we will be milling the old road surface so repairs can be made to the base layers. Additional milling, base repair and general cleanup is scheduled for Tuesday, October 14th. Wednesday is a built-in rain day if needed. If all goes well, we should be paving by Thursday, October 16th. The contractor will be doing cleanup activities on Friday. We hope to have Countryview Court open to normal traffic and parking sometime on Friday, October 17th.

One Additional Parking Closure will be Scheduled

There will be an additional half-day closure for parking when we will do the line painting for parking spaces. You will be notified when this will occur.

Please Be Aware

It is against the law to move a traffic control device (road barrier, traffic cone, etc.) or drive in a closed road construction area. Carnegie Police will be strictly enforcing these laws. Anyone driving on the closed road will be held responsible for any damages they may cause.
