

Project Work Continues in Your Area

PECO is currently upgrading the electric distribution system in Upper Makefield, Wrightstown, Solebury, and Buckingham townships. The project is part of an ongoing infrastructure investment to prevent customer outages, modernize the electric grid, and reduce the impact of extreme weather on electric infrastructure.

See updated work schedule and additional details on back.

Upcoming Work Schedule and Details

As part of this project, some tree trimming and removal work has already been completed, with additional work still needed. In the coming weeks, the remaining vegetation work will take place in other areas and will be performed by PECO's qualified contractor, Asplundh. Work in the coming weeks will focus on the areas listed below. Please see the map on the front for the full project area.

- Wrightstown, Upper Makefield and Buckingham townships, from Wycombe to Buckingham Valley and Pineville.

Following the tree work scheduled to be completed in late fall 2026, electrical construction work for this project is expected to start. We are dedicated to keeping you informed throughout this work. We have developed a plan to minimize direct customer impact as much as possible and to complete the project in a safe and timely manner.
