Jennerstown Borough Park and Nature Preserve

Explore & Enjoy

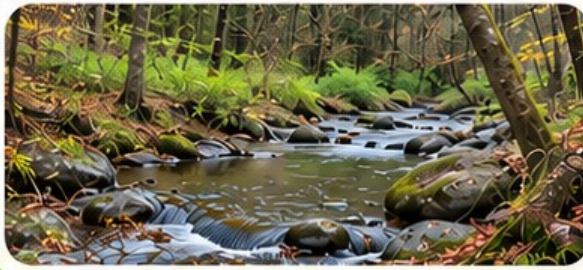

A 222-acre natural area featuring mature forest, streams, floodplains, beaver dams, and abundant wildlife and wildflowers.

The Preserve

Jennerstown Borough Park and Nature Preserve encompasses 222 acres of forest, streams and wetlands, providing a peaceful setting for hiking, nature observation and outdoor recreation.

Notable Features

- Mature forest
- Beaverdam Creek
- Pickings Run
- Card Machine Run
- Extensive floodplains
- Beaver dams
- Spring wildflowers
- Diverse wildlife habitat

The Park and Trail

Enjoy approximately 2 miles of primitive trails through a beautiful, wooded landscape. The trail begins at the trailhead and follows the creek upstream over level terrain to a narrow gorge between rocky bluffs. It then climbs along the gorge's eastern flank through an upland deciduous forest, and descends back to the creek just upstream from the starting point.

Trail Adopted by Girl Scout Troop #40856 in Cooperation with Jennerstown Borough.
