RE: Street Sweeping

We would like to clarify some information regarding street sweeping in Jennerstown Borough.

LCT Energy, LP does not currently have the appropriate attachment for its street-sweeping equipment. We appreciate their efforts and willingness to assist the Borough.

Somerset Borough now has a truck available and will begin street sweeping operations soon. This work will include Route 30. We will do our best to notify residents through postings at the Post Office, on the Savvy Citizen App, and on Facebook as soon as we receive the date they will be in town. Please watch for these notifications so that vehicles can be removed from on-street parking areas prior to the scheduled sweeping.

We also want to correct previous information that was shared. PennDOT is **not** responsible for street sweeping **within borough limits**. While PennDOT may perform street sweeping on state roads outside of boroughs, it does not conduct street sweeping on state roads, including Route 30, within Jennerstown Borough. We were informed of this last week and apologize for any confusion or misinformation.

Somerset Borough will complete the street sweeping and will return on a separate date to repaint the parking lines along Route 30.

Thank you for your patience and understanding.

Jennerstown Borough
