

**Get
Ready!**

Construction is about to begin in your area!

Here's what to expect.

Crews and Equipment

You may see Glo Fiber technicians or contractors working on or around your property. Any work on private property will be confined to public right-of-way or utility easements.

Easements

If an easement is located on your property and we cannot reach it, we will contact you for access.

Markings

You may see flags and paint markings to identify existing utilities, or road signage if traffic flow is impacted.

Running Fiber

We will be burying fiber or running fiber along existing poles. You may see large construction vehicles for those purposes.

Our goal is to perform the work safely and cause as little disruption as possible. Our typical work hours are Monday through Saturday 7:30 am to 5 pm.

Reminder!

We will be working your street for the next **5 to 7 days**.

If one of the boxes below are checked, you may need to temporarily adjust where you keep your vehicle. Otherwise we will not be doing anything at street level that will affect parking.

We will be working in the roadway. Please make sure your vehicle is parked off the street.

We may block your driveway at times during construction. Please park on the street to avoid getting blocked in.

We apologize for any inconvenience we may cause as we work to build a better network.
Thank you for your patience.

Why Glo Fiber?

Faster upload speeds

Great for video conferencing, uploading large files, online gaming, 4K video streaming.

A consistent, steady connection

Connection is glitch free and not affected by heavy internet traffic times.

Local, friendly, customer service

Our knowledgeable team provides such remarkable service that you will be disappointed you don't need to call them more often.
