FOR IMMEDIATE RELEASE

Scheduled Sewer System Upgrade Work – June 1–4, 2026

The Town will be conducting a scheduled Sewer System Upgrade Project from June 1 through June 4, 2026. This work is part of the Town's ongoing efforts to improve the reliability and long-term performance of the wastewater collection system infrastructure.

The project will require a permanent road closure along a portion of Fredericksburg Avenue during construction activities. Detour signage and traffic control devices will be in place to safely direct motorists through the area.

Local access to residences, businesses, and Woodward Funeral Home will be always maintained throughout the duration of the project. The Town and its contractors will work diligently to minimize disruptions and coordinate activities to reduce impacts to the traveling public and surrounding properties.

Motorists are encouraged to follow posted detour signage and allow additional travel time while construction is underway.

We appreciate the public's patience and cooperation as these important infrastructure improvements are completed.

For additional information regarding the project, please contact:

Stuart Turille
Town Manager – Town of Louisa
