

Letter from the Mayor Concerning Water Park Clearing

June 22, 2025

To the residents of our great town of Yankeetown,

I am writing to you regarding the recent clearing of the Water Park. First and foremost, I extend my sincere apologies to all citizens of Yankeetown, and especially to those living near the park, for the distress and inconvenience this situation has caused. It has become evident that there were substantial miscommunications during the progression of this project.

The Town Council and I share your disappointment and are genuinely embarrassed by the outcome of the park's cleanup. Please be assured that we are actively working to address and correct these issues, with the goal of restoring the Water Park to a safe, welcoming, and fully functional space for the community to enjoy once more.

As your Mayor, and together with the Town Council and dedicated staff, I am committed to working diligently to ensure that such outcomes do not happen again in the future. We are implementing measures to improve our processes and communication, so that the interests and well-being of our community always come first.

Thank you for your understanding and continued support as we move forward.

Respectfully,

Laurence Vorisek
Mayor
