PennDOT Announces Update to Online Plans Display for Route 22/322 Clark's Ferry Improvement Project in Dauphin and Perry Counties

Harrisburg, PA – The Pennsylvania Department of Transportation (PennDOT) invites the public to an updated online plan display regarding the Route 22/322 Clark's Ferry Improvement project. This project is located in Reed Township, Dauphin County and Penn and Watts townships in Perry County.

The purpose of the project is to improve safety along the state highway, improve traffic flow and address deficiencies on the bridges to extend the service life of the structures.

To address comments received during the previous public comment period, the proposed project now consists of a frontage road redesign from its offline location to a now parallel configuration, elimination of the roadway barrier separating the frontage lane and westbound through traffic, free flow left turn movements at the Route 147 interchange from the eastbound Route 22/322 ramp to westbound Route 22/322, elimination of the westbound Route 22/322 off ramp to southbound Route 11/15 to eliminate redundancy, and the addition of the Route 849 (Market Street) bridge rehabilitation over the Juniata River.

The project is currently in design and construction is anticipated to begin during the 2028 construction season.

A digital version of the information will be available to view online, with a public comment through September 8, 2025.

Information, including bridge plans, can be found by visiting the PennDOT District 8 website, [PennDOT District 8](#), clicking Projects Near You listed on the left side of the page, then the District 8 Projects, and choosing [Route 22/322 Clark's Ferry Improvements Project](#).

The purpose of the plans display is to present an alternative that addresses the comments received during the public comment period. It is also an opportunity for the public to review the project's potential effect upon Cultural Resources pursuant to the Advisory Council on Historic Preservation's 36 CFR Part 800 regulations implementing Section 106 of the National Historic Preservation Act.

The project documents can be made available in alternative languages or formats if requested. If you need translation/interpretation services or have special needs or have special concerns that require individual attention, David Fratangeli, Senior Project Manager, at (717) 705-6176 or email at dfratangel@pa.gov

Pursuant to Title VI of the Civil Rights Act of 1964, PennDOT does not discriminate on the basis of race, color, national origin, gender, age, or disability. If you feel that you have been denied the benefits of, or participation in a PennDOT program or activity, you may contact the Pennsylvania Department of Transportation, Bureau of Equal Opportunity, DBE/Title VI Division at 717-787-5891 or 800-468-4201.

For more information on projects occurring or being bid this year, those made possible by or accelerated by the state transportation funding plan (Act 89), or those on the department's Four- and Twelve-Year Plans, visit www.projects.penndot.gov.

Motorists can check conditions on major roadways by visiting www.511PA.com. 511PA, which is free and available 24 hours a day, provides traffic delay warnings, weather forecasts, traffic speed information and access to more than 1,000 traffic cameras. 511PA is also available through a smartphone application for iPhone and Android devices, by calling 5-1-1, or by [following local alerts on X](#).
