***Micro-Surfacing on Curry Road 16 from Hwy 311 to Curry Road L and Curry Road 26 from Curry Road D to Curry Road B
Tuesday, May 12, 2026 – Saturday, May 16, 2026***

Curry Road 16 and Curry Road 26 microsurfacing project will begin on Tuesday, May 12. Work will begin Tuesday on Curry Road 16 from Curry Road L heading West. The following days, work will begin on Curry Road 26 from Curry Road D heading East and on Curry Road 16 from Hwy 311 heading East. This project will take 4-5 days to complete. Different sections of these roads will be closed at a time while we are working in those areas.

We are asking all persons to **PLEASE SEEK AN ALTERNATE ROUTE**. Area residents are encouraged to schedule activities to minimize use of these roads for 3-4 hours after the surfacing is applied. Residents who live on the roads where work is to take place will receive a notice prior to work with more information.

We know that everyone is anxious in times of construction for the work to be completed, but please help us during these times by keeping the roads clear so this process may be completed in a timely manner. Thank you for your assistance during this time.

Questions or concerns may be addressed to Scott Reese at (214) 605-8261.
