

DOCUMENT DESTRUCTION FOR THE PUBLIC

APRIL 11, 2026

Identity theft continues to be a major security concern of everyone today. South Park Township is offering one solution to the problem. A document destruction clinic is scheduled for the residents of the community on **Saturday, April 11, 2026**. JVS Environmental will hold an on-site document destruction effort in the employee parking lot of the Administration Building between the hours of 10:00 a.m. and 2:00 p.m.

The cost to shred a standard box carton (11" x 17" or smaller) is **\$8.00 per container**. The contractor can shred a maximum of 10 boxes of paper per person on-site. Also, residents can have computer hard drives shredded at a cost of \$10.00/each. Document destruction costs are the responsibility of the resident and paid directly to the contractor at the time of destruction. Either cash or personal checks with the appropriate identification are acceptable forms of payment. A certificate will be issued by the contractor to each resident verifying the proper disposal of the material. Please be reminded that newspapers and magazines can be recycled curbside without paying an additional fee.

Document destruction is a great way to recycle and protect the environment because the shredded material is used by paper mills to generate new paper. One ton of recycled office paper saves approximately 17 trees. Residents who are interested in participating can just show up on the above-referenced date and time. Pre-registration is not required.
